Appium

Frameworks Django

Flask

Pyramid

PyJamas

Jython

Angular JS; Node JS

Spring

WebLogic

WebSphere

JBoss Amazon EC2

Jenkins And Fabric J2EE JDBC

JNDI

JSP And Servlets Databases Oracle MySQL

EDUCATION

Woodward University

BS Computer Science

November 2014

Boston, MA

CERTIFICATIONS

Brown University

Certified Python Developer

May 2016

Boston, MA

EXPERIENCE

Growthsi, New York, NY

Certified Python Developer

January 2020 – Present

- Developed web application back end components while communicating with 30+ clients to identify their needs/goals and work on meeting them.
- Worked on the improvement of data protection and security, increasing security rate by 24 % while creating new user information solutions.
- Maintained large databases and configured services to reduce software maintenance expenses, decreasing the costs by 15% within just one year.
- Trained and supervised 3 employees, providing training support/guidance.
- Obtained the Employee of the Year Award for meeting and exceeding all assigned goals and objectives and contributing to 33% overall success.

Growthsi, New York, NY

Python Developer/Tester

July 2016 – December 2019

- Successfully automated the moving of 5 tests from production to staging and staging to production by carefully reading the keywords from NVbugs.
- Consumed APIs while utilizing Python requests to read numerous JSON reports and file automatic bugs in the NVBugs for intermittent tests.
- Designed and configured database and backend applications and programs, contributing to operations continuity and increasing efficiency by 14%.
- Developed, tested, and debugged software tools utilized by 100+ clients and internal customers to facilitate and easier process and user experience.
- Obtained adequate experience in reviewing Python code for running the troubleshooting test-cases and bug issues, acquiring all necessary skills.

Tequed Labs, Boston, MA

Python Developer Intern

January 2015 – June 2016

- Designed robust, scalable, secure, and globalized web-based applications to ensure the continuity of all business processes and client satisfaction.
- Used the Python language to develop 3 web-based data retrieval systems.
- Performed data entry and other clerical work for project completion.
- Conducted descriptive and multivariate statistical analysis of data using Matlab, gaining 100% accuracy rate in terms of interpretation and analysis.
